About This Content

The SciFi Interior Model Pack provides all the props and textures you need to create your own high-tech sci-fi game environments. All content is ready to use with Leadwerks Game Engine, with no tweaking or adjusting required. Objects are designed to be easily aligned so you can build your scene quickly and revise it as often as you like. The included objects can be reused in many different ways to create a variety of science-fiction themed environments.

Contents

- 25 environment models including panels, pipes, supports, machinery, with predefined physics shapes for each object.
- 56 materials with 1024x1024 textures, including model skins, with diffuse, normal, and specular maps for each.
- Example scenes to demonstrate usage and provide ideas.

Installing the DLC

To install this DLC, select the "Workshop > Browse Workshop" (or "Manage AddOns" in Linux) menu in the main window. Select the "Subscribed" tab and choose this DLC in the list. Press the Install button, and the DLC contents will be added to your current project.

Review your whole race session lap-by-lap

Amazing puzzle game. Not too easy, not too difficult. And the game unravels the story quite nicely through visuals. I love how the levels grow as you progress through the family tree and how some of these levels connect together in different perspectives. Having played the earlier Cube Escape games and Rusty Lake Hotel, I love noticing little references to those games and similar puzzles. Overall, gameplay is great, story is great. I highly recommend this game. Can't wait for a future game by these developers and I hope to find out more about the mysterious Rusty Lake.. It's a perfect mix between tower defense and RTS flavoured with some masochism :) I haven't played it much on this account but played tens of hours with my friend's.. ENG:

If you like playing around, like adventure, excitement and challenge you, and you're a nerd and you like coding, you like to try out the hacks, by far the best hacker simulation, where you can legally hack! Testimonial!

Also includes a mod editor!

Jos pid\u00e4t leikkimisest\u00e4, pid\u00e4t seikkailusta, pid\u00e4t j\u00e4nnityksest\u00e4 ja haasteesta sek\u00e4 olet n\u00f6rtti sek\u00e4 pid\u00e4t koodaamisesta, tykk\u00e4t kokeilla my\u00f6s hakkerointia, ehdottomasti paras hakkeri simulaatio, jossa voi laillisesti hakkeroida! Suositeluni!

Sis\u00e4lt\u00e4 my\u00f6s modi editorin!. 1 space buck too much. This is a unique product, made with love, and care. You basically get to stick your head inside a couple of diorama (boxes), one a small demo, and the other the Tetris themed room. I love when VR goes small scale like that, but you could easily spend more time in the free Gnomes and Goblins demo (more places to stick my head into). I liked this, but there's a strong chance you will feel burned if you buy it. Make this F2P to stimulate sales of the more expensive sequels, eh? <https://www.youtube.com/watch?v=RlmiyDpw4sA>. This game is a direct sequel to The Dark Eye: Chains of Satinav, so playing that one first is a must. Stellar writing and soundtrack: improves upon the weaknesses of the first game, better animation and puzzle design. As well as continuing Geron's story, this time you follow another main playable character: Sadja. I found hers to be the strongest storyline, although Geron and Nuri's is quite good with a lot of interconnection between the two playable characters. The artwork is absolutely beautiful, even better than tough-act-to-follow Chains of Satinav. A few of the puzzles might seem illogical, but...as to not spoil anything, I'll just say think outside the box :D

With The Whispered World sequel announced, I'm hoping something similar will follow for Memoria. Great game, try if you like point and click adventure games or if curious about the genre, start with this series.. Trebuchet Discovered! Excellent, addictive, original new game. Well worth the price.... I'm sorry, but how the f**k did "2009 Spyker C8 Aileron" get into "VINTAGE CAR PACK"?!?!?!?! Bought the game yesterday - already played 7 hours. It feels familiar, and fresh at the same time - good mix of old and new;

Graphics, some tower placing/enemy waves/experience gain after beating a map mechanics feel very familiar. Gems needed to be stolen and carried all the way back by monsters, towers becoming upgradable after killing enough enemies during current game - that is a nice and refreshing change compared to most TD games I played.

Game feels like it's medium in size and complexity, but for the money It's a good value IMO.

All in all, it'd rate it 8/10. Fantastic game, excellent puzzles, highly recommended

This game is a sham. Please Youtube a 'let's play' of Rooftop Cop before buying.. Racism! Yay!?. WARNING: YOU WILL NOT RECEIVE ARMA 3: APEX IF YOU BUY THIS, YOU WILL GET ALL PREVIOUS DLC AND FUTURE, APEX IS NOT A DLC IT IS AN EXPANSION PLEASE DONT GO COMPLAINING IN THE REVIEWS AND GIVING IT A THUMBS DOWN JUST BECAUSE YOU ACTUALLY THOUGHT YOU WOULD GET A EXPANSION THAT COST MORE THAN THIS BUNDLE ITSELF, THE DEVS ARE NOT STUPID. But in all honesty this is a real grab if you buy this in a bundle instead of buying them all individually. good heist get it on sale though \u00a34.99 is too much for a single mission day 1 is difficult day 2 much easier. Molto molto carino, divertente e a tratti difficile.

Credo che comprarlo a 5 sia una esagerazione, ma in offerta si pu\u00f2 fare, ve lo consiglio. I've had a lot of fun playing as Tal. It's a nice change from the base game. Amazing outfit for Ileria. It's better than the default one in my opinion.. I tried to like this game in a breathlessly action packed RPG adventure! But seriously the lag in this game is outfittingly terrible!

The music is square one original and thought out but once u get to the vengeance of explosive freezing rates of time pressured lag!

This game is unplayable and its no excuse!

It probably did have potential to all-star cast a good narrative plot point but when u cant even get out of one area really smoothly fast!

I just cant take it anymore in non-stop thrills of boring and repetitive gameplay!

Im sorry u may like it but its not for me!

One of the worst rpg maker games ive played that had issues love the burrito master!!!
